

Basic Detail Report

Title Leesville, East Haddam.

Date 1834

Primary Maker John Warner Barber

Medium Drawing; pencil on paper

Description Sketch of Leesville taken from the hill on the road leading to Middletown. The Salmon River flows over a low dam at lower left and under an arched bridge in the center of the composition. The large building on the far side of the river, surrounded by smaller buildings, is probably the cotton mill, which Barber mentions in his text. A road winds up over the hill to the right. The steep hills in the background are largely treeless

Dimensions Sheet (height x width): 7 1/2 x 7 7/8in. (19 x 20cm)
