Title Stick-Style House

Date 1974

Primary Maker Richard Welling

Medium Drawing; black ink on paper

Description Drawing of a stick-style house, with a cross gable roof, vertical slats on the gables, decorative stick-work on the eaves of the gables, a wrap-around porch, and arched and double arched windows. There is a lattice-screened space under the porch. Around the house are trees, and in the background are low hills, which has the effect of making the house seem isolated.
