Basic Detail Report

Title Alligator tooth pin

Primary Maker David Allen Starr

Medium dentin, enamel, metal

Description Two alligator teeth joined at the lower edge by a band of metal to form a horizontal bar, from which hangs another smaller tooth as a pendant. Affixed to the back of the horizontal teeth is a hinged pin. The pin was brought by David Starr to his wife Julia Wightman Jerome in 1881 when he returned from a trip to Florida.

Dimensions Primary Dimensions: (Height) 1 7/8 x (Width) 2 3/4in. (4.8 x 7cm)
